

Message from our CEO

We are proud to introduce the 2027 ONE Light Catalogue. Each new catalogue represents another step forward in expanding our range of products and improving the solutions we offer to our partners and customers. This catalogue reflects our continuous commitment to innovation, product development, and our goal of supporting lighting professionals worldwide with reliable and forward-thinking solutions.

A key strategy in our product development is the ongoing transition of many fittings to CCT Variable (CCT V), Power Variable (PV) and Beam Variable (BV) versions. These solutions allow installers and end users to select the desired colour temperature, wattage and beam angle during installation. This offers greater flexibility, simplifies the project planning process, and simultaneously reduces stock complexity.

In this edition of our catalogue, we present a number of new products alongside important upgrades to our existing product portfolio.

Among the key updates, we have:

- Expanded our magnetic range by introducing profiles and fittings in white finish, CCT Variable fittings and have upgraded DALI fittings to DT8 CCT Tunable. You can see these in Section 09 of our catalogue.
- Enhanced the flexibility of our magnetic lighting solutions by introducing the new Plug & Play system which can be found on pages 315-322 and the new FLAT system which can be found on pages 323-330.
- Introduced a new DALI 3-phase track as well as the DALI track spot 65670CTL. This is our first DALI DT8 tunable fitting for our new DALI 3-phase track.
- Increased our selection of drivers, emergency kits, sensors and included CCT Variable and Power Variable LED Lamps.
- and finally, we have continued to upgrade our existing products to CRI90 where possible.

The combination of our new products as well as upgrades to existing ones ensures that we are in the position to offer complete lighting solutions across a wide variety of projects.

In addition to the above, ONE Light continues to grow internationally. Alongside the construction of our new 10,000 m² consolidated warehouse and headquarters, we have expanded our global network by establishing partnerships with more than 25 new distributors worldwide, further strengthening our presence in over 65 countries.

Together with our partners, we remain committed to delivering innovative solutions, quality products and dependable service which is the foundation to build strong, long-term collaborations.

On behalf of the entire ONE Light team, I would like to sincerely thank you for your continued trust and support and look forward to our continued mutual success.

Yiotis Demetriou

CEO

ONE Light Ltd

"Do it with passion or forget it!"

The Company

Since 2011, ONE Light has been developing modern technical LED lighting solutions for retailers, wholesalers and distribution partners across more than 65 countries worldwide.

By combining contemporary design, reliable performance and competitive pricing, we help our partners succeed in a constantly evolving lighting market.

one
LIGHT

Warehouse

Our new 10,000 m² modern warehouse allows ONE Light to maintain 99% stock availability across the catalogue, enabling orders to be prepared for dispatch within 24 hours and ensuring reliable and efficient order preparation.

Graphics Department

Our graphics team develops all product packaging and catalogue materials in-house, ensuring a consistent and high-quality presentation of every ONE Light product. All photography is produced in our dedicated photo studio to maintain accuracy and visual excellence.

Technical Department

All ONE Light products undergo thorough testing to meet the technical performance and quality standards required by our international partners and markets.

Online Catalogue Order

Request the PDF version of our latest catalogue by filling in the application form on our website and explore the complete ONE Light product range.

I would like to receive the ONE Light catalogue:

Catalogue Symbols

The following symbols are used throughout the catalogue to quickly identify key product characteristics, specifications and installation requirements.

Colour Codes

The following codes indicate the available product colours and finishes referenced in product descriptions and ordering codes.

Why ONE Light?

Reliable solutions for lighting professionals worldwide.

24-Hour Dispatch

Thanks to our efficient logistics network, most orders are prepared for dispatch within 24 hours of confirmation. Our team works with trusted freight partners to provide the most suitable shipping options and competitive sea and air freight rates worldwide.

99% Stock Availability

ONE Light maintains 99% availability across its catalogue, ensuring products are ready for immediate delivery from our new 10,000 m² warehouse.

Clear & Practical Packaging

Our packaging is designed to be clear, practical and recognizable, helping customers easily identify products while protecting them during transport and storage.

3000+ Products

Featuring more than 3,000 product codes, ONE Light provides a complete range of technical lighting solutions, covering most applications across residential, commercial, and architectural projects.
